Inmate Dies at Nebraska State Penitentiary

(LINCOLN) – James D. Chalk (82) inmate #82345 died at 12:10 a.m. on Friday, December 04, 2015, in the skilled nursing facility at the Nebraska State Penitentiary. Chalk was serving three to four years for Sexual Assault, 3rd Degree and Assault of a Vulnerable Adult from Dodge County. His sentence began on June 11, 2015, and he had a projected release date of February 24, 2017.

While cause of death has not been determined, Chalk was being treated for a long-term medical condition. As is the case whenever an inmate dies in the custody of the Department of Correctional Services, a Grand Jury will conduct an investigation.
