## FLOOR MAT SERVICE

CSI offers walk off mat rental and washing services for our contract laundry customers only. This additional service can be incorporated in the routine laundry pickup and delivery schedules. Interested in this service? Contact a CSI Sales Representative for more details.

### What you need to know:

CSI will purchase and retain ownership of a mat inventory that is leased out to contract laundry customers. CSI will order a set of 2 mats that will typically be rotated weekly to service one facility location. More frequent pickups and deliveries can be accommodated as weather conditions dictate. Carpet

CSI will initially prep and deliver a set of mats to the facility and explain how the mats are to be rotated into the service/washing routine.

The facility is responsible for collecting the soiled mats and delivering them to the laundry pickup site, where the CSI driver also makes his routine laundry stop. When one soiled mat is sent in for cleaning, the facility will utilize the second mat to provide the clean coverage for that location.

CSI will provide a laundry cart to accommodate the collection and distribution of the rental mats.

The CSI driver will return the cleaned mats to the same laundry delivery location and will have a form for the facility personnel to sign for receipt.

The CSI laundries will clean and inspect the leased mats during the washing process. Mats that are worn or damaged will be removed from service and replaced by CSI so the facility can expect continual high-quality and maintenance-free service.

### Billing Information:

Billing will occur monthly based on a biweekly wash cycle throughout the year. This routine will allow a clean mat to be rotated each week at each location. The facility can expect to have 2 billing cycles included on the monthly bill for 10 months of the year. There will be 3 billing cycles included in 2 months during the year, similar to a biweekly payroll calendar.

The billing routine will occur based on the set of mats provided per facility location. The facility is responsible for collecting the mats for processing and will be billed whether the service is utilized or not.
