## PURPOSE

To provide policy for Mission Specific Housing for the Nebraska Department of Correctional Services (NDCS).

Mission Specific Housing is the practice of housing individuals with common demographics, interests, challenges and/or needs together, to provide safe and effective living environments. Mission Specific Housing has multiple over-arching goals, including:

- I. More effectively addressing the needs of special populations
- II. Providing incentives to encourage prosocial behavior
- III. Reducing use of restrictive housing for special populations
- IV. Providing risk- and needs-responsive and behaviorally-targeted interventions
- V. Focusing services, resources and programming in a more efficient manner

Mission Specific Housing includes clinical treatment housing units as well as non-clinical, structured units to provide effective housing options for those who might otherwise be in restrictive housing for management or protection. It is a strategy used to reduce the use of restrictive housing by providing a range of alternatives to address and reduce behaviors leading to the use of restrictive housing and creating additional options for individuals transitioning out of restrictive housing, thus reducing lengths of stay for those not ready to return to the general prison population.
