- E. Incarcerated individuals are not permitted to participate in three-way calls, call forwarding, or conference calling telephone services for social calls.
- F. The ICS is programmed to allow the called party to block all future calls from incarcerated individuals and all future calls from all facilities. The called party is prompted to press the 2 keys at which time they are prompted to enter a four-digit PIN. If they choose to remove the block, they will need to call GTL/ViaPath customer service and provide the four-digit PIN to unblock calls.
- G. Any person may have his/her telephone number blocked by providing a written request. Reinstatement of blocked numbers will be considered on a case-by-case basis upon receipt of a written request. Victim/witness telephone numbers shall be denied and/or blocked if such information is known to facility team member and/or the central office ICS administrator.

IV. CALL SCHEDULING

Incarcerated individuals will be issued tablets for the purpose of making phone calls; however, phone tablets are not allowed in restrictive housing (see Section IV.A. below). As each incarcerated individual has a tablet there is no scheduling need to make phone calls and incarcerated individuals are allowed to make up to 60 minutes of phone calls per day. The tablets are property of NDCS and will be issued and collected whenever the incarcerated individual transfers into or out of the facility. The tablets are not intended to be used outside of the housing units. The 60 minute limit only applies to the tablets, the wall phones will still be in place but incarcerated individuals will only have 15 minutes on a wall phone.

Attorney/client and confidential status calls will be limited to 60 minutes per week.

For wall phones, a call schedule roster may be utilized to permit reasonable and equitable access to all incarcerated individuals. The use of rosters can prevent scheduling conflicts and domination by an individual or group of incarcerated individuals. Sign-up is on a first-come, first-serve basis.

Call duration for wall phones will be set by the appropriate deputy director. Each facility will publish wall phone call duration information in the corresponding procedure. An incarcerated individual may make an unlimited number of call attempts to any combination of the telephone numbers on his/her authorized call list during the allotted time period. Based on time periods available and day-to-day demand, there is no guarantee an incarcerated individual will be able to schedule a call every day or at the desired time. When there is an open time slot on any given day an incarcerated individual may request to be placed in that slot in order to make an attorney/client and Ombudsman call.

No telephone calls shall be placed during count times and times of emergency or be permitted to interfere with security operations. Specific telephone access times shall be included in facility Procedure. Team members are responsible for enforcing telephone regulations. In the event a facility is on a modified operational schedule for an extended period of time, the respective deputy director may authorize extended telephone access times for tablets up to 24 hours per day/7 days a week, excluding count times and times of emergency.
