Shipping

We require all products to be shipped from Gilman Cheese Corporation under refrigeration at temperatures between 35 - 41 degrees F.

Do Not Freeze

Freezing this product will adversely affect the quality of the cheese. Specifically, freezing this cheese will result in a soft, gummy body. The customer takes full responsibility for quality issues arising from freezing this product.

Do Not Double Stack

Double stacking pallets will adversely affect the strength of the corrugated boxes. Gilman Cheese Corporation will not be held responsible for any property or product damage that occurs if pallets are double stacked.

Warranty

This product is a pasteurized process cheese that is made in full compliance with the Federal Food and Drug Administration Standard of Identity.

Shelf Stability Notice

This product can be displayed at point of sale without refrigeration in normal store temperatures. Avoid displaying in direct path of heat outlets, in direct sunlight, or near other heat sources. During distribution and storage, we recommend cooler temperatures (35 - 40 degrees F) for the best flavor retention and shelf life.
