

NDCS Coronavirus (COVID-19) Statistics (as of June 12, 2020)

This information reflects testing and results for individuals incarcerated within NDCS. Numbers are updated every Friday. Consistent with the community standard of care afforded all Nebraskans through TestNebraska, men and women in NDCS are able to be tested through this program. Participation is completely voluntary. Additionally, testing of inmates is conducted when medically indicated, due to work release requirements, as a result of close contact with a COVID-19 patient or prior to a medical procedure.
