## PURPOSE

The purpose of this Policy is to provide guidance for the operation of a Staff-assisted Confidential Telephone Call System and the Inmate Calling System (ICS) throughout the Nebraska Department of Correctional Services (NDCS). It is the policy of NDCS to permit inmates practical and equitable access to reasonably priced telephone services for the purpose of maintaining family and community contacts and to supplement other forms of communications with their attorneys and the courts. Telephone usage by inmates is a privilege that may be restricted or withheld to protect the public, to ensure the safety, security, or good order of the Department, and to enforce NDCS rules and State statutes.

## GENERAL

Facility-specific procedures shall be developed to ensure that the use of telephones by inmates is controlled and supervised. Protection of the public, institutional safety and security, crime prevention/detection/prosecution, and inmate access are the order of priorities. Procedures shall be consistent to the extent practical among all NDCS facilities. All institutions and appropriate Central Office personnel shall be required to read and enforce the provisions in this policy. This policy is applicable to all NDCS facilities. The original ICS Registration Form will be sent by the CSA to the facility records manager for storage in the inmate's institutional file. One copy will be retained by the CSA and one copy will be returned to the inmate with his/her assigned PIN. Changes made for attorneys shall be made within 48 hours of the receipt of a properly completed ICS Special Registration form by NDCS staff. not permitted to participate in three-way calls, call forwarding, or conference calling telephone services for social calls.

The called party is prompted to press the 2 key at which time they are prompted to enter a four digit PIN. If they choose to remove the block they will need to call Global Tel\*Link Corporation (GTL) Customer Service and provide the four digit PIN to unblock calls.
- G. Any person may have his/her telephone number blocked by providing a written request. Reinstatement of blocked numbers is allowed only one time upon receipt of a written request. Victim/Witness telephone numbers shall be blocked utilizing information provided by the Central Records Administrator.

#### IV. CALL SCHEDULING

Inmates in the General Population will be issued tablets for the purpose of making phone calls. As each inmate has a tablet there is no scheduling need to make phone calls and inmates are allowed to make up to 60 minutes of phone calls per day. The tablets are property of NDCS and will be issued and collected whenever the inmate transfers into or out of the institution. The tablets are not intended to be used outside of the Housing Units. The 60 minute limit only applies to the tablets, the wall phones will still be in place but inmates will only have 15 minutes on a wall phone.

An inmate call schedule roster may be utilized to permit reasonable and equitable access to all inmates. The use of rosters can prevent scheduling conflicts and domination by an individual or group of inmates. Sign-up is on a first-come, first-serve basis. Telephone schedules for Inmates Sentenced to the Death Penalty and Protective Custody status inmates will provide access seven days per week. Inmates in the general population may schedule no more than one time block daily for personal calls and no more than two time blocks daily for attorney/client and Ombudsman calls. (4-4271)

Call duration will be set by the appropriate Deputy Director. Each institution will publish call duration information in the corresponding Procedure. An inmate may make an unlimited number of call attempts to any combination of the telephone numbers on his/her authorized call list during the allotted time period. Based on time periods available and day-to-day demand, there is no guarantee an inmate will be able to schedule a call every day or at the desired time. When there is an open time slot on any given day an inmate may request to be placed in that slot in order to make an attorney/client and Ombudsman call. Attorney/client and Ombudsman calls will be limited to 60 minutes per week. Inmates may be restricted to the use of a specific telephone in a specific location. No telephone calls shall be placed during count times and times of emergency or be permitted to interfere with security operations. Specific telephone access times shall be included in facility Procedure. Staff are responsible for enforcing telephone regulations and ensuring that an inmate does not exceed authorized time block periods.

##### A. Restrictive Housing Inmates

Telephone schedules for Immediate Segregation (IS) and Longer Term Restrictive Housing (LTRH) status inmates will provide access only four days per week. Restrictive Housing telephone calls are further limited as follows: (4-4271, 4-4272)

V. RECORDING/MONITORING/BRANDING

A. All inmate telephone calls utilizing the ICS and not eligible for confidential status shall be electronically recorded and may be monitored by authorized NDCS staff. At the discretion of the Director or the person acting in his/her absence, telephone recording and monitoring may be suspended.

Written notice shall be posted at each telephone location advising the inmate of the policy on recording and monitoring. Posted signs shall be printed in English and Spanish. Inmates will receive written notice printed on each Standard ICS Registration Form. The inmate shall be required to sign the Standard ICS Registration Form acknowledging acceptance of the conditions for use of the telephone for making calls. The inmate shall receive a copy of the completed form. Refusal to sign the standard or special ICS Registration form shall result in telephone privileges being withheld for all calls.

C. All telephone calls through the ICS shall be electronically branded with a pre-recorded automated announcement utilizing the AOS. The inmate will be electronically blocked from hearing or communicating with the called party until the call is accepted. Electronic security measures will be utilized to prevent an inmate from interfering with or altering the announcement. Branded announcements will be made available in English, Spanish and other languages as required. At a minimum, the announcement will provide the following information:

1. The call is collect or prepaid
2. The first and last name (committed) of the inmate caller

Printed handouts detailing calling instructions may be made available to supplement training. (Attachment D) Comprehensive specialized training will be provided to the Site System Coordinator, Site System Operator, Agency Intelligence Administrator and designated investigators, to promote a thorough understanding of ICS security features and the use of those features. Training will be conducted on an as-needed basis to train additional staff or to update staff on system changes. Select staff shall receive sufficient training to assume the duties of the contract Central System Administrator should NDCS choose to exercise this option.

All information related to ICS hardware, design configuration, software, programming, passwords, recordings, call detail records, personal identification numbers (PINs are to be disseminated only to the inmates to whom they are assigned), completed inmate registration forms, proprietary vendor information, system reports, investigations, intelligence information, operational security procedures and investigative analysis techniques shall be considered confidential. These shall be protected from dissemination to the public, inmates or unauthorized personnel.

- A. Inmate access to ICS equipment and information is strictly limited to the use of designated telephones and this policy.
- B. Authorized persons may be granted access to confidential aspects of the ICS on a need-to-know, right-to-know basis only. A staff member who has been trained and deemed to have the need-to-know and right-to-know may be granted authorization to access confidential ICS equipment/information. Inmates with disabilities shall have equal access to the ICS as other inmates without a disability. In accordance with the Americans with Disabilities Act and NDCS Policy 004.01, *ADA Policy*, NDCS makes every effort to provide for effective communication for inmates with known disabilities. Inmates who require reasonable accommodations, including specialized telephone or other communicative equipment, for access to the ICS should contact the NDCS ADA Coordinator via Inmate Interview Request, or notify any NDCS team member of this need, who will then bring the matter to the attention of the ADA Coordinator.

#### IX. ICS CONTRACTS AND CONTRACT PERSONNEL

Contracts involving inmate telephone services shall be in compliance with all applicable state and federal regulations and will provide the broadest range of calling options as determined by the Director. This shall be consistent with the requirements of sound correctional management. The vendor contract should also be based on rates and surcharges that are commensurate with those charged to the general public for like services. Any form of deviation from ordinary consumer rates will reflect the actual costs associated with the provision of services in a correctional setting. See Procedure XII. and XIII. below.

- A. All contract personnel directly associated with ICS installation, operation or maintenance shall pass an identification and criminal history background check.
- B. Contract personnel are prohibited from forming personal relationships or “fraternizing” with inmates or their friends or families. Any pre-existing relationships shall be divulged prior to acceptance by NDCS.

telephones shall be submitted in writing to the appropriate Deputy Director. Portable telephones will be used whenever appropriate in hospital and restrictive housing units to eliminate the need to allow inmates out of their cells to make telephone calls. All portable telephones shall be interfaced with the ICS and will provide identical call control as found on permanently affixed inmate telephones. ICS network administrative terminals shall be installed at Central Office and each facility in a secure area where designated personnel have direct 24 hour access to perform service, data input, data collection and investigative duties.

Appropriate physical and password security shall be instituted to guard against unauthorized access to confidential information and equipment. Passwords will be assigned by the Special Services Administrator and changed periodically to provide access security.

NDCS currently contracts with GTL for the supply and service of personal inmate tablets for the purpose of making telephone calls. GTL tablets are issued to inmates free of charge and are NDCS property. When an inmate transfers to another facility or is discharged, he/she must return his/her GTL tablet to NDCS staff. Inmates observed by NDCS staff damaging and/or destroying a GTL tablet are subject to a misconduct report and may be required to pay restitution if found guilty of recklessly or intentionally damaging or destroying the device. Inmates found guilty of recklessly or intentionally damaging or destroying the device will not be issued a replacement tablet. If there is documented evidence of NDCS staff inadvertently damaging and/or destroying a tabled during the course of his/her duties, inmates may be issued a replacement GTL tablet. Tablets that stop functioning with no obvious signs of damage will be returned to GTL and GTL will determine whether the tablet will be replaced by GTL. In all other situations where a GTL tablet is lost or stops functioning, inmates may be allowed to reimburse NDCS for the price of a replacement GTL tablet, and a replacement tablet will be issued, subject to the Warden's approval.

**XI. DATA ENTRY/REPAIR SERVICE/ACCOUNT MANAGEMENT**

The Site System Coordinator, Site System Operator, or Shift Supervisor are authorized to make requests for data entry issues to the Central System Administrator during the normal business hours of 8:00 a.m. to 4:30 p.m., Monday through Friday. The contact number for repair services on a 24 hour basis is available in each facility's Central Control. The contract vendor is responsible for the expense and labor associated with the installation and maintenance of the ICS, including wiring.

**XII. COMMISSIONS**

In the interest of making inmate calling as affordable as possible while acquiring necessary security enhancements, the State of Nebraska has waived its right to receive commissions in association with ICS revenues.

**XIII. RATES AND SURCHARGES**

Call type, along with applicable surcharges, determine the cost of a call. Calls are billed in one minute increments. Rates are approved by the Public Service Commission and rates are not established by NDCS. For information regarding call rates, the public may contact Public Communications Services, Inc/GTL at [1-866-230-7761](tel:1-866-230-7761) or refer to (Attachment E). In order to receive accurate rate information, the caller must provide the name of the institution from which the inmate is calling and the destination telephone number.
